Course description

Course title: Morphology	Semester:
Course code:	
Instructor's name: András Cser	<u>Lecture</u> – seminar (please underline)

Course content/topics

The basic notions of word structure; the formal types of morphological operations (affixation, fusion, reduplication, truncation, compounding, conversion, cliticisation, templatic patterns); the functional types of morphological operations (inflection, derivation); the functions of inflection and the interface with syntax (agreement, case marking, expression of grammaticalised categories); the properties of derivation and the interface with the lexicon (blocking, productivity, lexicalisation); the interface with phonology; the main models of morphology (Item and Arrangement, Item and Process, Word and Paradigm), morphemic vs. lexemic approaches; mapping between form and content, levels of representation; the main types of diachronic change in morphological systems (reanalysis, analogical change, morphologisation, the morphological consequences of changes in other modules of the grammar).

Readings:

recommended readings:

Audring, Jenny & Francesca Masini (eds. 2017) *The Oxford Handbook of Morphological Theory*. Oxford University Press, Oxford

Bauer, Laurie (2004) *Morphological Productivity*. Cambridge University Press, Cambridge

Booij, Geert (2007) *The Grammar of Words: An Introduction to Linguistic Morphology*. Oxford University Press, Oxford

Cser, András (2017) *Morfológia*. PPKE BTK, Budapest (in Hungarian)

Keller, Rudi (2003 [1990]), *Sprachwandel*. Francke, Tübingen–Basel

Matthews, Peter H. (1974), *Morphology: An Introduction to the Theory of Word Structure*. Cambridge University Press, Cambridge

Requirements: written end-term exam
